

My Great, great Grandfather

A story from
Victor Bacher , Y2bi Belleville Wix.

My great great grand father story of WW2.

This is the story of my great great
grand father. He was building a
secret radio and one day he got
trapped by the french police and he
went to prison and the judge said
"Com on we are going to kill you in
germany". There was one aeroplane
with documents and the aeroplane
with the documents got shot-down.
When he arrived to germany they

didn't know what to do. So
they put him into a prisoner
camp. He escaped from digging
a tunnel then he joined the
French army of liberation. He
was decorated as a war hero!
