

VAD nurse

From Poppy (3G) Wilfie (3C) and Barnaby (1C) - Belleville Webb's

We are very close to our great grandmother who is aged 98 and was a VAD nurse based at Greenwich despite living in Northumberland. She never applied for her war medal (as she was invited to do so) at the time but regretted this year later and so wrote off for it. She has left the medal to her son Lieutenant General Robin Brims (our great uncle) who was Commander of the Field Army 2005-2007.
